Her hull is constructed of wood and she is powered by a 75-horsepower two-cylinder compound steam engine. The engine is the original power plant that was installed in 1908 and was manufactured by the J. H. Paine & Son Co. in nearby Noank, Connecticut. Steam is generated by a coal-fired boiler. Sabino came to Mystic Seaport in 1973 and she was designated a National Historic Landmark in 1992.
