White Water Walk

Take a walk like no other, along a boardwalk at the very edge of one of the world's wildest stretches of whitewater! Marvel at the relentless power and beauty of nature, and see how the deep and narrow Great Gorge was created. Trillions of gallons of water are forced into this accelerating trough--the sight will take your breath away!

Whirlpool Aero Car

Soar the Great Gorge, high above the racing Niagara River. You'll be transported through the air in an antique cable car, while far below the torrent of water abruptly changes direction and creates one of the world's most mesmerizing natural phenomena - the Niagara Whirlpool, sometimes frightening and always unforgettable!

Butterfly Conservatory

Located on the grounds of the Niagara Parks Botanical Gardens, visitors to the Butterfly Conservatory are transported to a tropical paradise full of lush vegetation, trickling waterfalls and thousands of vibrantly colored butterflies. Over 2,000 butterflies, made up of 45 different species, call this beautiful space home. The self-guided walking tour of the Butterfly Conservatory begins with a short, informative video presentation.

Floral Clock

The intricate designs on the face of the Floral Clock are created with up to 16,000 carpet bedding plants and are changed twice each year. The planted face of the Floral Clock is maintained by the Niagara Parks horticulture staff, while the mechanism inside is kept in working order by Ontario Hydro. The tower at the back of the clock houses Westminster chimes that greet each quarter hour.

Afternoon on own
Dinner included at Skylon Tower

The Skylon Tower is Niagara Falls most famous restaurant. The restaurant offers fine dining 775 feet above the Falls! You can see the Canadian Horseshoe Falls, The American Falls and the Bridal Veil Falls all from the restaurants and observation deck. Visibility from Observatory on a clear day is 80 miles .

Day 3 Friday (B)

Breakfast at hotel
Journey Behind the Falls

To stand at the heart of Niagara, you'll first need to descend 150 feet and explore 130-year-old tunnels through the bedrock, but you'll feel the thunderous vibration of the Horseshoe Falls long before you see them. The observation deck at the foot of this 13-story-tall wonder will leave you breathless (and maybe a little bit wet), but don't forget the viewing portals cut straight through the rock, offering a once-in-a-lifetime view of one-fifth of the world's fresh water crashing down in front of you.

Hornblower Niagara Boat Ride

You may have seen the Falls before but you've never seen them quite like this. Hold onto your heart and keep your eyes wide open because you're in for the thrill of a lifetime! The legendary Niagara Falls boat tour takes you as close as possible to the thundering roar, awesome power and amazing mist of the mighty Falls!
