Cape Henry Lighthouse (Photo ID is required for all over the age 16)

While the original Cape Henry Lighthouse is the 4th oldest lighthouse in the country, it was the first lighthouse authorized by the U.S. government, dating from 1792. It was the first federal construction project authorized by President George Washington after the Revolutionary War. In 1881, a newer lighthouse was constructed 350 feet from the original. The Cape Henry Lighthouse has long served to protect and guide vessels entering and leaving the Chesapeake Bay. Today two lighthouses stand at Cape Henry, guardians to the gateway of the Chesapeake Bay. They have been placed on the US National Register of Historic Places and have been designated as a National Historic Landmark.
